

Truck Wash Pro

Washing your car, truck or bus is extremely important. It successfully prevents contaminants like dust, dirt, pollen, tree sap, bug guts, salt, air-borne pollutants from adhering to your vehicle and damaging your paint and finish.

It is a concentrated product that must be diluted in water. It is a quick-action truck wash product that penetrates and reacts chemically with all kinds of dirt by dissolving it with ease.

Additional TWP benefits

- Environmental friendly;
- Odorless product, excellent for indoor use.

Dilution Specifications

Automatic washing plants: dosing pump program of 7L per h, 20-30 pulses;

Manual washing: From 1kg to 20 to 1kg to 100 litres of water;
Engine wash, chassis, Rims: From 1kg to 10 to 1kg to 30 litres of water.

Applications

To be used in all types of car/truck washing facilities: jet wash washing facilities, automatic washing facilities, manual washing, etc.

Supplier Recommendations

Dilutions ratios above are recommended. Dilution criteria will be accordingly to the needs of the specific application. Always rinse thoroughly at the end of the application.
